Dear Ladies and Gentlemen:

Re: Columbia's Action

Please accept my apology for the problems Columbia has created by converting the north lot into a temporary parking lot for tradesmen during our construction of our new residence. This property is owned by Deanlee Group and Ron Starr who was, other than assisting us with our parking problem for the tradesmen, had absolutely nothing to do with our actions. We had been given information from our professionals that proved to be incorrect and under our instructions the contractor commenced clearing the site for the temporary parking.

Again, on behalf of Columbia please accept my sincere apology for our actions. I have confirmed with Mr. Whitehead we are returning the property back to the state which we received it in and will need to seek other alternatives for trades people parking shortage for during the construction period.

Yours sincerely,

J.E. Campbell
